Mr. G. D. Adamson.

Kinrossa -

Africa -

Dear Brother:--

My wife sends kindest regards
 regards Remember us to
 all at Kinrossa

Your letters (two) received. I have no time to write what I want to. It must wait for the next steamer. This was so unexpected that we were not at all ready. Briefly then - to business - Those six bales Dr. Swiss sent up were short whole pieces. 124 and every third or fourth piece is short one fathom. They must have been packed right and left. Work is going on fairly well. I have been sick. was sick one whole week at a time.

Will give details in October letter.

Alex died shortly after you left.

News from America very discouraging. I take it that the Board is afraid to send any one out here. On account of the danger!!! What of those who are here alone? All well at present. Was glad to hear that you were so useful on the trip. May God bless you. In haste
 Yours sincerely, D. W. Snyder.
